

# LIVEBETTER K-CENTRE

## NEWSLETTER - LAST YEAR RECAP

Dear Partners and Funders,

As we look back on the past year, we are filled with gratitude for your support and enthusiasm for the Korean Culture Centre. Despite the challenges that we faced, we were able to bring the beauty and richness of Korean culture to our community through a variety of events and programs. Over the past year, K-CENTRE has put a lot of effort into improving the existing cultural classes, and as a result, the number of students has increased significantly and the public's participation as volunteers has increased. As people's interest in Korean culture has increased, it is a class that combines Korean food and Korean language, and many students are currently taking the class. We have increased the participation of youth and women volunteers and have encouraged and supported these projects to restore confidence and engage with the community as part of it. We are proud of the success of our events and programs last year and look forward to bringing even more exciting activities in the coming year. Thank you for your continued support.
